

3DEXPERIENCE® DRAFTSIGHT PROFESSIONAL

INSPIRE DRAWING INNOVATION AND COLLABORATION WITH BEST-IN-CLASS 2D DRAFTING SOLUTION

Leverage the robust 2D DWG drafting environment and the ability to connect your teams and data with the cloud-based 3DEXPERIENCE platform.

OVERVIEW

3DEXPERIENCE® DraftSight Professional connects the powerful DraftSight CAD solution for 2D DWG files to the 3DEXPERIENCE platform, a cloud-based product development environment. With all data saved securely on the platform, your design and engineering teams can access and share your drawings at any time, from anywhere, and on any device. Collaborate in real time across disciplines, departments, and your entire business ecosystem, including customers, partners, and suppliers. Simplify license management with the ability to monitor usage, manage users, and assign and remove licenses from a single administrative dashboard.

KEY CAPABILITIES

Powerful: Robust 2D DWG drafting environment for your manufacturing and construction communication needs

- Migrate easily from 2D CAD tools with a familiar interface and support for DWG data and automations.
- Create, edit, view, mark up, and print 2D drawings in the widely adopted DWG file format.
- Automatically dimension and arrange annotations to save time, improve consistency, and reduce tedious manual tasks.
- Reuse rich libraries of drawing and block resources to speed up your drawing delivery.
- Convert raster images such as floor plans and logos into vectorized and editable line entities in DWG files.
- Customize DraftSight to fit your specific needs with extensive APIs.

Collaborative: Multidiscipline collaboration across your entire business ecosystem

- Intuitively drag and drop DWG files from the online storage to the graphics window directly from within the DraftSight application.
- Share your DWG files securely and manage the digital accesses directly from within the DraftSight application.
- Locate relevant drawings quickly by keywords, file formats, attributes, and tags.
- Preview drawings. Zoom, pan, and mark up drawings with multi-touch gestures directly in the browser.
- Create dashboards for personalized views into information from all sources and set alerts for data feeds.
- Share unstructured and structured content through activity streams, chat, video, and user-tagged comments.

Our 3DEXPERIENCE® platform powers our brand applications, serving 11 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the 3DEXPERIENCE Company, is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating 'virtual experience twins' of the real world with our 3DEXPERIENCE platform and applications, our customers push the boundaries of innovation, learning and production.

Dassault Systèmes' 20,000 employees are bringing value to more than 270,000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit www.3ds.com.
